Model 405-LCD

Portion Control Scale

The 405-LCD General Purpose Scale is ideal for industrial kitchens or food prep areas where portion control of ingredients is essential. Its 100% subtractive tare allows the operator to quickly tare off each ingredient as it is loaded on the scale. The food grade stainless steel platter is removable, making it easy-to-clean. The clear LCD backlit display makes it easy-to-read in both indoor and outdoor conditions.

The base is constructed of ABS plastic, which provides outstanding protection for daily usage and helps to lock out moisture.

The 405-LCD features selectable kg, gram, lb, oz, lb/oz units and a 100% tare feature. With a resolution of 1 g / 0.002 lb for the 6 kg / 12 lb model and 2 g / 0.005 lb for the 15 kg / 30 lb, the 405-LCD Compact Bench Scale is accurate for any general weighing application.

A wipe-down plastic cover comes standard to protect the display, keyboard and housing from dust and food particles.

Accuracy

Within 0.04% at full load

Capacity

6 kg x 1 g / 12 lb x 0.05 oz
15 kg x 2 g / 30 lb x 0.1 oz

Power

9V 600mA power supply (included)
or four AA batteries (not included)

Display

16.5 mm / 0.65" high digit LCD backlit

Construction

ABS plastic housing with food safe
304 stainless steel weight platter

Operating Keys

Tare/Unit, On/Off/Zero
