- Covered by the Marsden 8 year warranty

### Handrails to support

The Marsden M-652 is our standard best-selling M-650 platform, with two additional handrails to provide support for patients which are unsteady on their feet.

The M-652 can also be used to weigh wheelchairs as the platform is large enough, even with the additional of the handrails to accommodate almost any wheelchair on the market.

### Optional connectivity options

The M-652 is available with either Bluetooth or Wi-Fi connectivity to ensure that our customers are able to transfer data seamlessly or input into EPR systems.

We would simply need to insert a connectivity module at the time of order and then provide you with our standard protocols for easy and simple integration into your existing system.

### Easy to use

The M-652 features from our best-selling DP-3810 indicator. This device features from a full numeric keypad for easy BMI calculation and simple function keys.

The On/Off button ensures that you have full control over the device and you can prolong the battery life. Hold enables you to gain readings for unsteady patients and Tare allows you to deduct unwanted weight.
