Handrail to support

The Marsden M-653 is our standard best-selling M-650 platform, with an additional handrail to provide support for patients which are unsteady on their feet.

The handrail on the M-653 also has a hinge, which means that the rail can easily be folded down and then safely manoeuvred into position, or conveniently stored easily thanks to the handle and wheels.

Optional connectivity options

The M-653 is available with either Bluetooth or Wi-Fi connectivity to ensure that our customers are able to transfer data seamlessly or input into EPR systems.

We would simply need to insert a connectivity module at the time of order and then provide you with our standard protocols for easy and simple integration into your existing system.

Easy to use

The M-65 features from our best-selling DP-3810 indicator. This device features from a full numeric keypad for easy BMI calculation and simple function keys.

The On/Off button ensures that you have full control over the device and you can prolong the battery life. Hold enables you to gain readings for unsteady patients and Tare allows you to deduct unwanted weight.
